ALVIAN AHMAD FEBRIAN

Fullstack Web Developer

0895324380409 | alalvian200@gmail.com | Bogor, Jawa Barat

ABOUT ME

I am a person who wants to learn and experience new things in the workplace while also trying my best to improve my own abilities to help the team I work with.

EDUCATION

2020 - 2023

YADIKA 11 JATIRANGGA VOCATION SCHOOL | COMPUTER NETWORK ENGINEERING

During my time at vocational school, I learned the basics of computer networking, hardware maintenance, troubleshooting, and network programming and implementation, which became a strong foundation in the world of IT and web development..

2023 – Present

PAKUAN UNIVERSITY | COMPUTER SCIENCE

I am currently pursuing a degree in Computer Science, which provides me with in-depth knowledge of programming, software development, databases, cybersecurity, and Geographic Information Systems (GIS).

EXPERIENCE

January 2022 - March 2022

PT WIKA INDUSTRI ENERGI | WEB DEVELOPER

During my internship at PT WIKA Industri Energi, I contributed to the development of an internal web application, working on both the backend and frontend. This experience enhanced my understanding of the application development lifecycle while strengthening my technical skills and teamwork abilities.

June 2024

GEMASTIK | UX DESAIN

As a participant in the Gemastik competition in the UX Design category, I collaborated in designing innovative and user-friendly solutions. This experience enhanced my ability to apply interface design principles and strengthened my skills in creating intuitive and effective designs.

September 2024 – September 2025

BELAJAR KODING BERSAMA MAHYA (BERKEMAH) | MENTOR IT

As a mentor, I guided participants in learning programming concepts, from fundamentals to practical application development. I also supported them in solving real case studies, which strengthened their logical thinking, problem-solving abilities, and teamwork skills.

December 2024

JINISO X MARKETEERS |INNOVATION CHALLAGE 2024 (SEASON 2)

I participated in the Innovation Challenge 2024 Season 2, organized by Jiniso in collaboration with Marketeers. In this competition, I developed creative solution ideas focused on technology and innovation. This experience provided me with valuable insights into applying innovation in the business world, while enhancing my skills in concept development, idea presentation, and networking with industry professional.
